

2002 Children First Report Card

Acknowledgments

The Research Sub-Committee of the Mayor and Council's Children First Roundtable is pleased to submit the Children First Report Card on the status of children in the City of Greater Sudbury. This report card is the product of collaborative efforts between the members of child welfare agencies, community members, private researchers and City staff. We hope that it will be a reference document and a helpful tool in tracking the City's progress towards maintaining and improving the welfare of children as stated in the Children First Charter.

Children First Report Card

Message from the Mayor

It's my pleasure as Mayor and on behalf of City Council to congratulate the co-chairs and members of the Children First Roundtable, as well as the Research Sub-committee of the Roundtable, on the publication of this *Children First Report Card*.

Reviewing the document, I recall the goal I set two years ago for the Children First Roundtable. To me it seemed clear that we had to assemble a group of citizens with expertise on children to advise Council and help us set policy on children's issues.

In my inaugural speech of December 2000, I made a commitment to do just that.

I knew exactly who should lead this group. Deputy Mayor Louise Portelance has consistently championed children's issues in Council, and Janet Gasparini has done the same in the community. Together, this dynamic team would direct a team of parents and other experts in making sure we put children first in this community.

In less than two years, the Children First Roundtable has accomplished so much!

This publication by Research Sub-committee Chair Harsh Nath and members of the sub-committee is a key part of that accomplishment. The sub-committee, which includes members not on the Roundtable itself, has worked very hard to complete the Report Card. First, they identified all the research on children and families related to this community, a monumental task in itself. Then, using the *Children First Charter* created by the Policy Committee of the Roundtable, they organized the research data around each benchmark.

This work makes it easier for us to assess our current status in making Greater Sudbury a child-friendly community. And it offers a means of charting our progress into the future; a way we can hold ourselves accountable to the children and families of our community.

On behalf of Council, sincere congratulations to everyone who has contributed to the development of the *Children First Report Card*.

Jim Gordon, Mayor

Children First Report Card

Message from the Children First Roundtable Co-chairs

On behalf of the members of the Children First Roundtable we are very proud to be presenting the Children First Report Card for the City of Greater Sudbury. This report is the latest accomplishment of the talented, committed group of volunteers who make up the Children First Roundtable and its committees.

Since the Children First Roundtable's inception, its members have worked hard to accomplish many of our goals. Two of the most significant accomplishments have been:

- The development of the Children First Charter, endorsed by Greater Sudbury City Council in June 2002: a community document which clearly outlines a vision for children in the City of Greater Sudbury, which will ensure healthy development and bright futures for all of our children. The Roundtable is bringing this document to groups throughout the community for endorsement as a basis for all work done on behalf of children.
- The implementation of the Children First Public Recognition Program: a program which gives citizens the opportunity to nominate individuals who work hard to put children first in Greater Sudbury for public recognition. To date, close to forty individuals have received recognition by letter and ten individuals have received special recognition in public ceremonies. All nominees were recognized last year at the First Annual Butterfly Brunch.

With the publication of the Children First Report Card, we have accomplished another of our goals. Researchers and service providers from across the City have collaborated, through the Roundtable's Research Sub-Committee, to identify and collect data that will allow us to measure the progress of the children of the City of Greater Sudbury. As data is collected in the years to come, researchers and citizens will be able to track our progress as a community in meeting the needs of our children.

The Research Sub-Committee's decision to organize the data around the goals set out in the Children First Charter will help to make the data even more relevant as our community rallies around the Children First Charter and continues to make a concerted and sustained effort to improve the lives of children and bring us closer to meeting the important goals outlined in the Charter.

We hope that community members will find the Children First Report Card a useful document and that they will be inspired to take action on behalf of our children so that, as we continue to monitor the progress of our community in future reports, we can ensure that we will measure concrete and positive change for all of our community's children.

Deputy Mayor Louise Portelance
Co-chair, Mayor and Council's
Children First Roundtable

Janet Gasparini, Executive Director,
Social Planning Council of Greater Sudbury
Co-chair, Mayor and Council's Children First Roundtable

Children First

Children First Charter of the City of Greater Sudbury

GIVEN THAT a thriving community invests its hopes in the future of its children;

AND THAT all children deserve to live in a family and community that believes that the welfare of children is of primary importance;

AND THAT all children deserve the assurance of their inherent goodness;

WE, THE MAYOR AND COUNCIL'S CHILDREN FIRST ROUNDTABLE IN THE CITY OF GREATER SUDBURY RECOMMEND THAT WE, AS A WHOLE COMMUNITY INCLUDING THE PUBLIC, PRIVATE AND NON PROFIT SECTORS, WORK DILIGENTLY AND TOGETHER SO THAT ALL CHILDREN HAVE:

A SENSE OF BELONGING TO A RESPECTFUL AND DIVERSE COMMUNITY THAT:

- preserves and celebrates the child's ethnic, cultural, spiritual and/or religious identity
- protects the child from racism and any form of discrimination including discrimination based on their age

A QUALITY OF LIFE WHICH INCLUDES ACCESS TO:

- safe housing
- nutritious food
- recreation and leisure activities
- health care

SUPPORTIVE AND CARING ENVIRONMENTS THAT INCLUDE:

- family time
- early childhood development activities and parenting supports
- quality childcare
- an educational system that ensures each child attains her or his full potential

SAFE, PROTECTIVE ENVIRONMENTS THAT:

- promote a child's cognitive, physical, social, spiritual and emotional well being
- provide protection from abuse, mistreatment, injury and disease

KNOWLEDGEABLE AND RESPONSIVE GOVERNMENTS THAT:

- understand their responsibility towards children
- invite the opportunity for children to have influence on the future
- take action in order to create a sustainable future

AND THAT

These assurances will follow children as they progress through life's stages into adulthood.

**DATED in Sudbury, Ontario,
this 10th day of October, 2002.**

**DATÉ à Sudbury (Ontario)
en ce 10^e jour d'octobre 2002.**

Les enfants avant tout

Charte des enfants « Les enfants avant tout » de la Ville du Grand Sudbury

ATTENDU QUE une communauté florissante fonde ses espoirs sur l'avenir de ses enfants;

ATTENDU QUE tous les enfants ont le droit de vivre dans une famille et dans une communauté pour lesquelles le bien-être des enfants a une importance primordiale;

ATTENDU QUE tous les enfants méritent d'avoir l'assurance de leur bonté inhérente;

NOUS, LES MEMBRES DE LA TABLE RONDE DU MAIRE ET DU CONSEIL « LES ENFANTS AVANT TOUT » DE LA VILLE DU GRAND SUDBURY, RECOMMANDONS QUE NOTRE COMMUNAUTÉ ENTIÈRE, COMPRENANT LES SECTEURS PUBLIC, PRIVÉ ET LES ORGANISMES À BUT NON LUCRATIF, COLLABORE ASSIDÛMENT POUR QUE LES ENFANTS AIENT :

UN SENTIMENT D'APPARTENANCE À UNE COMMUNAUTÉ RESPECTUEUSE ET DIVERSE QUI :

- protège l'enfant et met en valeur son identité ethnique, culturelle, spirituelle et religieuse
- protège l'enfant contre le racisme et toute forme de discrimination, y compris la discrimination fondée sur l'âge

UNE QUALITÉ DE VIE OBTENUE GRÂCE À :

- un logement sécuritaire
- des aliments nutritifs
- des loisirs et des activités récréatives
- des soins de santé

DES MILIEUX POSITIFS ET EMPATHIQUES DANS LESQUELS IL Y A :

- du temps passé en famille
- des activités pour le développement de la petite enfance et un soutien pour les parents
- des services de garde d'enfants de qualité
- un système éducatif qui permet à chaque enfant de s'épanouir pleinement

DES MILIEUX SÉCURITAIRES QUI PROTÈGENT L'ENFANT ET QUI :

- favorisent son mieux-être cognitif, physique, social, spirituel et émotionnel
- le mettent à l'abri de la violence, des mauvais traitements, des blessures et des maladies

DES GOUVERNEMENTS BIEN INFORMÉS ET RÉCEPTIFS QUI :

- comprennent leurs responsabilités à l'égard des enfants
- sont ouverts aux possibilités permettant aux enfants d'influer sur l'avenir
- prennent des mesures pour créer un avenir viable

ET QUE

Les enfants auront cette assurance tout au long de leur croissance vers l'âge adulte.

Jim Gordon, Mayor/Maire

Children First Report Card

Introduction

In June 2000 the Children's Forum brought together over 150 committed community people who moved beyond philosophizing and identified tangible directions that could be taken to make our community more child-friendly. The Mayor and Council's Children First Roundtable is a direct spinoff from the Action Plan created at that forum.

The Mayor and Council's Children First Roundtable is a committed partnership of elected representatives, local experts, businesses and citizens working together to build a sense of civic responsibility to improve the quality of life for Greater Sudbury's children. It was created to bring together community members with knowledge, skills, insights and experience in the issues impacting children. The Roundtable advises the Mayor and Council on children's issues and promotes community initiatives and actions which put children first.

The Roundtable identified several priority areas from the Children's Forum Action Plan, including policy development, public education, public recognition of success and research. The focus of the Research Sub-Committee was research related to children's issues in our community. This sub-committee was charged with working to meet one of the Roundtable's key goals:

To ensure that a set of indicators to determine our community's progress is developed and to engage local researchers in the development of an annual Report Card on Children that tracks successes and progress.

With the publication of the Children First Report Card, this goal is closer to being achieved.

This report provides a snapshot of how Greater Sudbury's children are doing at this time. As data is collected and updated in the years to come, we will have a base of information which will allow for appropriate comparisons that will demonstrate the ongoing progress of Sudbury's children.

The development and publication of the Children First Charter of the City of Greater Sudbury in 2002, provided an excellent framework for a report card on our children's progress.

The indicators presented in this report bring together data from many sources, organized around the goals set out in the Children First Charter. Each indicator tells a story of how well our children are doing, where we are doing well and where we have room to improve.

The Children First Report Card is setting benchmarks and is intended to fulfill several functions:

- to be a reference document on the welfare of children in the City of Greater Sudbury;
- to measure progress in improving the status of children as stated in the Children First Charter;
- to help raise public awareness and understanding of the needs of children;
- to serve as a planning tool for service providers and elected officials so that they can make decisions about the allocation of resources;
- to act as a stimulus for political and community action to improve the situation of children.

As the years go by and the report card is updated, the story of our children's progress will be told. The efforts of governments, community agencies, families and individuals will be reflected in the results.

The Children First Roundtable invites all citizens of Greater Sudbury to read and use the data to learn how children in our community are faring, to measure our progress in meeting the goals set out by the Children First Charter, to learn where efforts need to be made and to find out how they can help.

Children First Report Card

A sense of belonging to a respectful and diverse community that: preserves and celebrates the child's ethnic, cultural, spiritual and/ or religious identity; and protects the child from racism and any form of discrimination including discrimination based on their age

Social and Economic Inclusion Initiative

Social Inclusion is not something you do to someone or for someone, but it is something we do with each other.

The Social Inclusion project, sponsored by Social Planning Council, has a main goal to "Increase the understanding of, appreciation, and respect for diversity in Sudbury out of a shared commitment to the future well-being of all Sudbury's children."

Diversity refers to ways in which people are different from each other due to looks, behaviour or lifestyle. It reflects an anti-bias approach that includes the following areas of diversity where bias may exist: ability, culture, belief systems, socioeconomic status, sexuality, age, appearance, family composition, gender, and race.

The two main objectives of the project are:

- to engage children and their families from diverse groups to develop strategies and resources that promote the social inclusion of children;
- to engage decision-makers and other influential sectors in adopting these social inclusion strategies.

Aboriginal Prenatal Nutrition Program

The Canada Prenatal Nutrition Program is offered by the federal government through the Brighter Futures Initiative (Health Canada). The goal of the program is to improve the health of Aboriginal mothers and their infants up to six months of age. It is designed to provide food supplementation, nutrition counselling, support, education, referral and counselling on lifestyle issues to pregnant women who are likely to have unhealthy babies.

Our target groups are:

- Low income mothers;
- Pregnant adolescents;
- Youth at risk of becoming pregnant;
- Pregnant women who abuse alcohol or other substances;
- Pregnant women living in violent situations;
- Pregnant women living in isolation or not having access to services.

Program Statistics from April 1, 2002 to January 31, 2003

Contacts:

- 1052 adults
- 165 children aged 0-6 months
- 396 children aged 6 months to 6 years
- 92 children over 6 years

We have offered:

- two series of 8 prenatal classes
- two series of 6 aboriginal parenting classes
- 43 Talk'n Task groups
- 24 mom and babe swims at the YMCA
- 23 special event activities
- 27 traditional teachings
- 68 clients have received family healing support
- 25 community kitchens

In addition:

- A children and maternity wear clothing depot is available to all women who attend programs.
- Over \$1600 in food vouchers have been distributed to families in need.
- Childcare and transportation is available to all clients during programs.
- An average of 79 referrals have been made to various community agencies.
- Approximately 37 pre and post-natal home visits have been made.

Fairstart

Only 176 children out of the 7,950 children aged 0-4 in the City of Greater Sudbury attended Fair Start in 2002. This means that only 2% of preschoolers in these areas were thoroughly screened before starting school. Of those screened, 38% were advised to seek follow-ups in one or more domain. For examples, 29% required further assessments for hearing, 39% for speech, 33% for vision, and 15% appeared to be developmentally delayed. According to the Community Services Inventory, Fair Start was only available at three sites in this area, most of which are in or in close proximity to the core of the City of Greater Sudbury. Many families were put on waiting lists. However, a proposal has been developed to expand the program in order to make it accessible to more families.

Source: Ontario Early Years Centre North, 2002

Number of Children with Decayed Teeth Using the Children in Need of Treatment (CINOT) Program

The Children In Need of Treatment Program assists pre-school and elementary school age children with the cost of dental treatment. A public health dental hygienist must first assess the child prior to receiving dental care. In 2001, 1616 children were referred for urgent dental care and 665 received financial assistance for treatment through the CINOT program. In 2002, 1673 children were referred for urgent dental care and 694 children received assistance for the cost of the treatment through the program.

The Growing Family Health Clinic - New in 2002!

Expectant mothers and young children need easy access to health services. To help increase their access to regular and consistent primary health care, the Sudbury & District Health Unit offers Nurse Practitioner services. The main objective of this clinic is to provide early and regular care during pregnancy and to provide ongoing care of mothers and children throughout the early childhood years. Families that are planning a pregnancy, expecting a baby or currently have a child up to three years of age can attend. Due to the high demand for services, this program can only accept clients that do not have a family physician.

Brighter Futures / Grandir Ensemble Program (BF/GE)

Brighter Futures / Grandir Ensemble is federally funded by Health Canada under the Community Action Program for Children (CAPC). BF/GE offers parents of newborns and young children up to the age of 6 a variety of programs and services that help parents to enhance their parenting skills. We work with parents to help them understand the importance of healthy child development. As they develop their parenting skills they feel more confident in their ability as parents to raise healthy children.

Ontario Early Years Centres

Ontario Early Years Centres (OEYC) help support parents and caregivers in the crucial role that they have of ensuring that children get the best possible start in life. These Centres provide many services to parents/caregivers and children 0-6 years. They offer programs to support parents and caregivers of young children in all aspects of early child development. For example, parenting programs and information about pregnancy are available. As well, many programs and activities are offered to promote early learning and literacy in children. The parent-child Mother Goose program, one during which mothers and babies come together to learn and play nursery rhymes, is a good example. Information about other early years programs in the community is readily available to those who visit OEYCs, and outreach activities are provided to ensure that all parents and caregivers can get involved. Many satellites within the City of Greater Sudbury have been opened, as OEYCs are designed to be accessible to all families. The following statistics show the participation rate from April to December, 2002 for all sites within the city.

April to December, 2002

# of children who participated in OEYC programs	3,379
# of visits to OEYC made by children	17,887
# of adults who participated in OEYC programs	2,559
# of visits to OEYC made by adults	13,035

Ratio of Licensed Childcare Spaces to Children

The City of Greater Sudbury is working to increase the amount of licensed childcare available for families. A goal of having at least one licensed childcare space for every ten children aged 0-12 was set in the City of Greater Sudbury Child Care Services Strategic Plan in 2001. This goal was reached overall in the City in 2002, but some areas still have not reached it.

In 2002 the ratio of licensed childcare spaces to children 0-12 was 1:10.

Ratios	2000	2002
Licensed childcare spaces: children 0-12	1:12	1:10
Preschool* childcare spaces: children 0- 5	1:8	1:8
School age childcare spaces: children 6-12	1:26	1:20
Area with lowest ratio (Lowest # of childcare spaces compared to number of children 0-12)	1:41 Onaping Falls	1:22 Valley East
Area with highest ratio (Highest # of childcare spaces compared to number of children 0-12)	1:10 Walden	1:5 Capreol

*Preschool spaces include infant, toddler, preschooler and junior kindergarten spaces.

Source: Children Services, City of Greater Sudbury, 2002

Childcare Fees

An analysis of licensed childcare fees was completed in July 2002. The following are the lowest, highest and average daily fees for full-time licensed childcare in Greater Sudbury.

Age group	Lowest fee	Highest Fee	Average Fee
Infant (0-18 months)	\$26.50	\$48.00	\$39.35
Toddler (18-30 mths)	\$24.00	\$35.00	\$29.47
Preschooler (30- 6 yrs)	\$24.00	\$30.00	\$27.16
Before and After School (6- 12 yrs)	\$9.00	\$15.57	\$12.73

Source: Children Services, City of Greater Sudbury, 2002

Number of Childcare Programs Participating in the Program Quality Project

Twenty-two licensed childcare agencies, with 38 childcare programs, participate voluntarily in the City's "Program Quality Indicators" program which evaluates centre's program quality.

Early Development Instrument Results*

On June 13th 2002, the results of the Early Development Instrument's (EDI) measures of school readiness to learn were released by the Canadian Centre for Studies of Children at Risk from McMaster University. A descriptive report on the status of children in the Sudbury-Manitoulin District was included. Five different areas of early development were evaluated: physical health and well-being, social knowledge and competence, emotional maturity, language and cognitive development, and communication skills and general knowledge. Each scale score ranged from 0 - 10.

The report of a macro level of analysis showed how well over 2000 senior kindergarten students tested in the Sudbury-Manitoulin District in the 2001/2002 year were doing compared to over 25,000 Senior Kindergarten students tested across Canada in 2000/2001 (last year's cohort). Although the children in Sudbury-Manitoulin scored slightly lower on emotional maturity, and slightly higher on the language and cognitive development, on average, they appeared to be doing just as well as children in last year's cohort in all five domains. Twenty-five percent of our children had problems in at least one readiness to learn domain, and 13.7% had problems in at least 2, whereas the comparable percentages for last year's cohort were 26.3% and 13.1%, respectively.

Additional analyses were conducted on demographic variables to compare children within the Sudbury-Manitoulin District. The results showed that girls consistently scored better than boys, and that older children scored higher than younger children, and that this was true for all five domains of school readiness. Both these findings were a consistent developmental phenomenon across all sites where the EDI was implemented.

Children First Report Card

**Knowledgeable and responsive governments that:
understand their responsibility towards children**

Mayor and Council's Children First Roundtable

The City of Greater Sudbury's Health and Social Services Department, Children's Services Division has been focussing on the needs of young children for many years. The concept of "Children First" was first developed by the former Region of Sudbury's Health and Social Services Department, as a key message for reinvesting the savings resulting from the National Child Benefit (NCB) program. A community consultation was undertaken with specific recommendations as to how to best use these dollars for children's programming.

The Children's First initiatives brought focus to the development of programs that would enhance child development in the early years, and also has provided a framework for further planning at the municipal level. Children's Services is taking a leadership role to ensure that Departments within the new City work together to address other areas within their purview, like transportation and leisure programs, to create a child friendly city.

In June 2000 a Children's Forum was organized by the Region of Sudbury - Health and Social Services Department, Social Planning Council and representatives from the local School Boards, the United Way, the Algoma, Cochrane, Manitoulin, Sudbury District Health Council and provincial Ministries. The purpose of the conference was two-fold: to address the gaps which exist in children's services in the early years; and to create a Community Action Plan that would be strategic and do-able, would be endorsed by the City of Greater Sudbury and others, and that would enhance the development of children through the critical early years.

Mayor Jim Gordon identified the need for a Children's Roundtable in his inaugural speech for the new City of Greater Sudbury in December 2000. It was envisioned that this Roundtable, from a broad focus, would find creative ways to strengthen and support young families to ensure that no child is left behind. The Mayor and Council's Children First Roundtable is a committed partnership of elected representatives, local experts, businesses and citizens working together to build a sense of civic responsibility to improve the quality of life for children.

Children First Report Card

Knowledgeable and responsive governments that: invite the opportunity for children to have influence on the future

Greater Sudbury Youth Strategy

The Greater Sudbury Youth Strategy is an initiative dedicated to building a youth-friendly community. Through the work of the Youth Cabinet (a core group of youth volunteers) and the Advisory Team (a panel of community stakeholders) the Youth Strategy endeavors to realize the following vision:

The Greater Sudbury Youth Strategy will be the voice for youth, working in collaboration with key community partners to assess youth needs and develop innovative, feasible solutions to address issues pertinent to youth;

The Youth Strategy will be renowned in the community for being a fair and inclusive representative body of youth that acts as a resource to the community of Greater Sudbury in delivering quality programs and initiatives aimed at defining and building a youth-friendly community;

Greater Sudbury will grow into a community that is able to attract and retain youth due to its ability to offer a high quality of life, quality education, challenging and rewarding employment opportunities, and reliable, affordable ancillary services.

The Greater Sudbury Youth Strategy aims to have some “serious fun” while accomplishing the following goals:

- Raising awareness of the contributions of youth;
- Creating “participation,” “experience,” and “job” opportunities for youth;
- Advocating on behalf of youth;
- Building a youth-friendly community where youth can “Study, Stay and Succeed in Greater Sudbury!”
- Implementing projects and programs that address issues that youth feel are barriers to building a successful future in Greater Sudbury;
- Increasing opportunities for youth input and involvement at all decision-making levels;
- Creating an awareness of the positive impact that youth have on this community;
- Increasing opportunities for youth volunteerism;
- Creating and utilizing partnerships to accomplish goals and create cohesion and understanding in the community;
- Acting as a resource for agencies and groups whose mandates are youth oriented, as well as for other groups interested in having access to a youth perspective.

In working towards these goals, the Greater Sudbury Youth Cabinet will:

- Remain positive, strong, compassionate, open-minded and have fun!;
- Serve as positive role models in the community;
- As a team, demonstrate qualities of leadership, passion, intelligence, wisdom and grace;

We believe that:

- There are key decisions to be made and action to be taken in the community, especially concerning education, employment and quality of life;
- An open-minded, committed, realistic, collaborative, goal-oriented approach will bring success to the Youth Strategy initiative;
- We have an opportunity to “make a difference”;
- Greater Sudbury is home, but it needs our help;
- Youth have a strategic role to play in bringing about meaningful change in our community.

Children First Report Card

Conclusion

The Mayor and Council's Children First Roundtable Research Sub-Committee has endeavoured to create a document that reflects the status of children living within the City of Greater Sudbury; a city recognized as a world-class community bringing talent, technology and a great northern lifestyle together. The efforts that were invested in the development of this Children First Report Card will continue into 2003 whereby the Research Sub-Committee will resume researching the latest data available about children and engage local researchers in the development of a second report card that will track successes and progress.

The assistance from the community in generating information for the Children First Report Card has been overwhelming. It is through cooperation, collaboration and team work that the Research Sub-Committee is able to present this document to you. In order to ensure that the second report card is as successful as the first, the Research Sub-Committee invites all community members to share their thoughts and provide feedback about what they liked and what is missing. It would therefore be greatly appreciated if you could take a few minutes and complete the section below; your feedback is important to us.

Name: _____

Address: _____

Phone Number: _____

What I liked about the Children First Report Card: _____

What is missing from the Children First Report Card: _____

I can provide what is missing: Yes No
